Zoning Permit (approved) (not approved) By:					Date						
A cito plan	or man o	f the propo	sad projec	t must h	e inclu	ded with	this norm	it Thie dr	awina ek	all inclu	ıda hut is not limiter

A site plan or map of the proposed project must be included with this permit. This drawing shall include, but is not limited to, distances from the property lines, distances from other structures on property, placement of the project, etc. If the structure in this permit is not placed in the correct location as identified on the site plan or map, the City of Valley Center has the right to require the petitioner to rebuild such structure to conform to the setbacks as identified in this application.

Note: If you plan to dig on your lot to install a fence or foundation for an accessory structure, the City strongly urges you to first call Kansas One-Call, which is 1-800-344-7233. Please wait for utility companies to flag their utility lines before construction begins. This service is done at no charge to the property owner.
